WORK HISTORY

Web Developer, Eswebtech.com / Osh Business and Training Center, 2013-Present

- ◆ Right now I'm creating a web development training center in Osh Kyrgyzstan and also taking personal contact jobs. You can find out more at obtc.kg and eswebtech.com
- ◆ ZenDesk Api: Zendesk is the largest helpdesk company in the world and they contracted me to develop their c# api wrapper. The project can be seen here: https://github.com/eneifert/ZendeskApi_v2
- ◆ You can also check out my portfolio here: <http://obtc.kg/en/eric>

Web Developer, Ritter Insurance Marketing, Harrisburg 2010 - 2012

- ◆ Worked with a team of developers to develop C# MVC programs to assist the insurance marketing department
- ◆ Created the RAP project from scratch that was responsible for paying over 2000 employees each month
- ◆ Was one of two developers responsible for the Medicareful.com project

Team Member, Osh Business and Training Center, Kyrgyzstan, 2008 - 2010

- ◆ Worked with the OBTC to develop businesses and hand them over to locals.
- ◆ Developed a flexible language learning program in C# and a fully customizable keyboard using macro scripts. These programs as well as some of my other language resources are used by dozens of people all throughout Kyrgyzstan and by other team members in Asia.
- ◆ Worked as a network administrator

Co-Founder, Cragsoft, Dillsburg PA, 2007 - 2008

- ◆ Designed and developed several Facebook applications that gathered over 100,000 users.
- ◆ Developed many of the web services and tests that would geocode addresses and visually map the data in useable results for Cragsoft's vehicle routing software.
- ◆ Developed the early versions of the online demonstrations for the routing software.
- ◆ Spoke with potential clients, gathered information, compiled reports, and gave product demonstrations.

Software Developer, Westfalia Technologies, York PA, 2006 - 2008

- ◆ Worked on the base team developing their flagship warehouse management software using C#. Developed code for the user interface, core services, hand held devices, and also wrote many advanced SQL queries.
- ◆ Deployed, tested, and troubleshot the software on live multimillion dollar warehouses and successfully met customer deadlines.
- ◆ During my first two weeks on a live site I identified a subtle database transaction problem and worked with my team on a solution that increased the throughput of the automated system by over 100% at Fage Yogurt.
- ◆ Reverse engineered a TCP/IP interface to a bar code scanner and integrated it into our system.
- ◆ Researched and wrote papers to other staff members explaining interesting concepts in the .Net language.

Software Developer, Tech Harmony, Carlisle PA, 2006 Internship

- ◆ Designed and developed web applications for clients using ASP.Net.
- ◆ Worked with SQL databases.

Software Developer, Genesis Systems, Harrisburg PA, 2005 Internship

- ◆ Designed and developed medical record software for HUP using C#.
- ◆ Co-designed and implemented a large relational database.

Support Technician, Perfect Order, Mechanicsburg PA, 2004 Internship

- ◆ Designed and implemented web applications using PHP.
- ◆ Fixed bugs and errors in software.
